eggs tarballs

Install penguins-eggs with a tarball. Tested on almalinux, fedora, rockylinux.

Usage

Download the tarball from sourceforge, then:

- `git clone https://github.com/pieroproietti/penguins-packs`
- `cd penguins-packs/tarballs`
- `./setup ~/Downloads/penguins-eggs-tarball-10.0.54-1-linux-x64.tar.gz`

Although the setup command, is a simple bash script, and MUST be started as a common user, you must still have admin rights to do the installation.

penguins-eggs will be installed under the `/opt/penguins-eggs/` directory.
